April 20, 2014

Mrs. Jane Smith  
Recruitment Officer  
The Corporation  
123 Pleasant Lane  
City, State 12345

Dear Mrs. Smith,

Here is why you should hire me. I am a fourth year student at the University of Waterloo in Computer Engineering. This has given me a combined 20 months of real world experience. For 8 of those months I was one of two developers working on a platform to manage a growing electronic record label. For the last year I have been working with a team to build a council whose primary goal is to create programs that encourage a sense of community among blind and partially sighted youth.

I am not your typical intern. I am not someone who spends each and every day writing code. I am the person you should hire if you want someone who will push projects forward because I am passionate about them and because I believe in them. I am a very motivated and dedicated worker and I work well both as a member of a team and on my own.

I am looking to work for a company where I am surrounded by passionate and driven people who want to push what is possible and have fun doing it. I want to find a company that isn't afraid to reimagine who they are and what they are doing. I want to work in an environment that fosters creativity and new ideas. I believe that **Company Name** is this company and that is why I want to work for you.

Regards,

Garrett Everding
